SUBJECT: Monthly Ridership Report – March 2026

Dear Board Members:

RECOMMENDATIONS:

Receive the Monthly Ridership Report

SUMMARY:

We are presenting the monthly ridership report for activity for the month of March 2026. This report shows trends in ridership for SMART by tracking Total riders, Average Weekday riders, Average Saturday riders, Average Sunday/Holiday riders, as well as bicycles and mobility devices on board the trains. The report also includes total users counted on the SMART Pathway for the month, and total riders on the SMART Connect shuttles.

With the transition to the Automatic Passenger Counter (APC) in October 2022, SMART has a highly accurate method of tracking boardings and alightings at stations that does not depend on manual counts by the conductors. The APC system has been tested and validated at a 99% accuracy level and has been certified for passenger count use by the Federal Transit Administration (FTA); the system was revalidated and recertified by FTA in June 2025. Both APC-based ridership and fare-based collection rider counts are shown in the attached report to give a full picture of ridership. APC-based ridership captures all riders, including riders with passes who neglect to tag on or off, riders who fail to activate their mobile app tickets, as well as free-fare riders.

This report compares the most recent month to the same month during the prior year, as is standard industry practice for tracking trends over time. These reports also note relevant details associated with fare program discount usage and trends in riders bringing bicycles onboard as well as riders who use mobility devices.

SMART's ridership data through March 2026 is posted on the SMART website (<https://sonomamarintrain.org/RidershipReports>).

FISCAL IMPACT:

None.

Respectfully,

/s/
Zoe Unruh
Planning Manager

MARCH 2026 SMART RIDERSHIP REPORT

SMART Ridership Report
Board of Directors,
April 15, 2026

March 2026 saw an increase in ridership from the previous month, with average weekday ridership at 4,642, up 12% from February and up 29% over March 2025. Average Saturday and Sunday ridership increased by 3% and 20%, respectively, from the previous month, and increased 27% and 40%, respectively, over March 2025. Total monthly ridership was 124,966 up 32% over March 2025 and 115% over March 2019 (pre-COVID).

As background, SMART modified services in March 2020 due to the COVID-19 pandemic, with weekend service annulled and weekday service reduced to 16 trips. In May 2021, SMART added back 10 weekday trips. Saturday service was restored in May 2021, and Sunday service in May 2022. In June 2022, SMART added 10 additional weekday trips, and in November 2022, SMART added 2 additional midday trips, for a schedule of 38 trips per weekday. In May 2023, SMART added two evening trips on Friday and Saturday, known as the Starlighter. In November 2023, SMART suspended the Starlighter service but increased weekend service, running 16 trips total on both Saturday and Sunday. In August 2024, SMART added two additional round trips for a total of 42 trips each weekday. In late May 2025, SMART began running service to Windsor Station.

The tables below present data for March 2025 and 2026 year-over-year, and the Fiscal Year to date (July-March). Ridership for the fiscal year to date is tracking 31% over the same time period in FY25.

MONTHLY TOTALS YEAR-OVER-YEAR	MARCH 2025	MARCH 2026	% Change
Ridership	94,916	124,966	32%
Fare-based Ridership (Clipper + App Only)	49,095	58,770	20%
Average Weekday Ridership	3,595	4,642	29%
Average Saturday Ridership	2,279	2,899	27%
Average Sunday Ridership	1,605	2,248	40%
Bicycles	11,288	16,127	43%
Mobility Devices	273	286	5%

¹ Due to the Clipper transition, it appears the fare-based ridership data from Clipper is underreported. We continue to work with Clipper to resolve ongoing issues.

MARCH 2026 SMART RIDERSHIP REPORT

SMART Ridership Report
Board of Directors,
April 15, 2026

FISCAL YEAR (Jul - Mar)	Fiscal Year 2025	Fiscal Year 2026	% Change
Ridership	794,015	1,044,037	31%
Fare-based Ridership (Clipper + App Only)	420,786	507,565	21%
Average Weekday Ridership	3,446	4,490	30%
Average Saturday Ridership	1,998	2,666	33%
Average Sunday Ridership	1,715	2,232	30%
Bicycles	103,893	127,525	23%
Mobility Devices	1,946	2,779	43%

SMART Connect Program

SMART currently operates two on-demand shuttles, SMART Connect Airport and SMART Connect Larkspur. SMART Connect Airport, launched in June 2023, serves the SMART Sonoma County Airport station, the Charles M. Schultz Sonoma County Airport, and the surrounding area. SMART Connect Larkspur, launched in June 2024, serves the SMART Larkspur station, the Golden Gate Larkspur Ferry Terminal, and the surrounding Larkspur Landing area. The goal of the SMART Connect program is to facilitate first-and-last mile connections from SMART stations through the provision of a reliable on-demand shuttle that SMART riders can use for transit transfers, work and school commutes, and other destinations. SMART Connect uses microtransit software from The Routing Company called Ride Pingo, which allows users to pre-book trips or book a ride on-demand. Riders can also book by phone or walk-on, space available. In April 2025, Connect Shuttle service hours at Larkspur were expanded from 4 to 7 days per week; both shuttle locations now offer daily service.

Total March monthly ridership for the SMART Connect program was 2,420 riders.

SMART Pathway

As of May 2025, SMART has installed 14 counters on the Pathway, with six in Marin County and eight in Sonoma County. The counters differentiate between bicycles and pedestrians, and track data by time of day and day of the week. The counters cannot distinguish between unique users but based on the estimated average trip length of 3 miles, and the average spacing between counters of 3.7 miles, the counts are considered an accurate estimate of monthly pathway usage. As additional pathway segments are constructed, counters will be placed on those segments to measure pathway usage. To date, count data has shown a fairly even split between pedestrians and bicyclists.

In March 2026, SMART counted 109,812 users on the pathway, an increase of 33% compared to the same month in the prior year. The increased counts are attributed to higher volumes of users on existing pathway segments as well as counts of users on newly opened pathway segments.
